

Commerce Siam

About

“International Trading Business unit covers procurement, import, export, Clear Customs, Shipping and international trade in several products such as Food & Beverage & Industrial Goods and... at around the world.”

● Dry Fruit

A shrunk fruit without watery texture. These fruits are traded by us in Thailand, Iran & Malaysia with products such as mango, kiwi, blueberry, etc.

● Nuts

A fruit with stiff shell which protects a usually edible seed. Various kinds of nuts are sold by us in Iran & Thailand, such as: walnut, Cashew, Pecan, etc.

Sugar

With the generic name of sweet soluble carbohydrates which is usually used in foods. granulated sugar is what many eat everyday in their tea & powdered sugar is the same as the previous with distinction of having smooth powder and sifted. Fruits like sanding sugar.

Rice

One of the most consumed foods worldwide & is the seed of either *Oryza Sativa* or *Oryza glaberrima*. It has various kinds such as Basmati Rice, Long Grain, Brown rice, etc.

● **Frozen Corn**

AKA Maize is a cereal grain & its pollen blossoming is made by the plant stalk & separates ovuliferous blossomings aka ears which produces edible seeds when fertilized.

● Canned Tuna Fish

Edible, processed fish sealed in an container & exposed to heat. Canning is a food preserving method & provides a shelf life of 1-5 years. Because of fish's low acidity, microbes can flourish.

Natural Rubber

AKA India rubber, latex, etc., initially contains polymers of isoprene, an organic compound, & other minor organic compound's impurities. Thailand, Malaysia & Indonesia are the leaders in this market.

Pickle

Created by immersing fresh fruits in acidic liquid until they're no longer raw. Cucumbers are one of the common pickles & they're often lacto- fermented in saltwater brine.

● Jam

created by cooking fruit with sugar & can be used for a long time & Pectin & honey can be additives in it. Different fruits can be modified & used for years in jams & marmalades. Different kinds of jams, jellies & marmalades such as fig jam or quince jam have been exported to 28 countries.

● Tomato Paste

A thick paste made by cooking tomatoes for hours & after removing contents such as seeds, the liquid will be cooked again for the base to be reduced to a rich & thick concentrate.

Dates

They're chewy & sweet fruit which is mostly a major food in middle-east. They're highly healthy because of their vast amount of minerals & vitamins. There are many types of it such as ameri dates or mazafati dates, however not all types of dates are acknowledged by people.

● Saffron

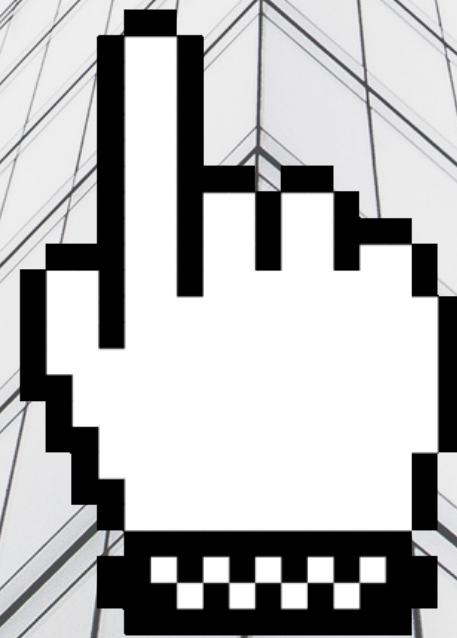

A spice derived from *Crocus sativus* aka saffron crocus. One of the costliest spices by weight in world & the visible crimson stigma aka threads are collected & dried for using as seasoning & coloring. Some examples include Negin saffron, sargol saffron etc.
